

I am pleading with the government to NOT overturn the "No Call" rule. I feel that it works well to ensure my privacy in the home. I do not wish to be distrubed from dinner, family time, and devotion with those annoying calls. I feel it is my right to privacy. If those companies that waant to sell their product wish to do so, they must use the US Postal Department as a way to get to the public. So please, please, do not revoke the "NO CALL" list.
